My name is leslie Williams Todays date is February 12 2015 I am predicting that I will lose my Social Security (right now im being reviewed by them) also their is a Great liklehood that something may occurr towards me before my next review due to be started in March 2015 Social Services I HAVE experinced the Same exact Verbal Harrassment related to GangStalking at Social services and Social Security that has been caught along my routes all of them and at all of my previous Hiking areas and the New One Some of this Evidence is Featured Below except for what was experinced at the San Diego Social Security (is their Media evidence of it occurring their?) Their is a Great liklehood multiple different techniques can be used to achieve either one of these described losses or both,ie....here are some of the descriptions that may effect these covertly managed objectives? Mail theft and or mail delayment Arrests or Psychiatric detention or both and if it occurs money Identification phone camera evedence can be stolen (you need identification to follow what is required for Business to be concluded at either or both of these Departments Agencies Illegal Lodging Tickets and or arrests for same which they can then be used to claim I broke probation and when you go to jail for more than 30 days you lose Social Security or at least it will be suspended and if this occurs while im being reviewed thru social services /social Security the requierments needed to be met pertaining to the reviews cannot be taken care of if your in Jail resulting in normal appearing reasons why I whould lose benifits from either or both Agencies department 's Social services Social Security,Mail Theft /Mail Delayment can easily be used as a excuse from either or both agencies to say Im losing benifits because I didnt follow thru on Paper Work and or any and all appointments this will be Updated Soon Todays date is 2/12/15 12:55 PM
