The following Statements are ABSOLUTE Facts,  
 UCSD and the Law Library " Down Town San Diego on Front Street PLAYED a Massive role in the GangStalking Mental Harassment leslie experienced, that is Enclosed within this Blog this absolutely include's Staff and their Security Guards.  
 Its why they have ALWAYS been included in the Title of the Blog's that are all over the Internet  
 " UCSD and Law Library are they Networking GangStalking "  
 and why the Picture .of Leslie's Twitter account @higginsgggg is a Picture of the Law Library that show's a Banner about Human Trafficking " they hosted a event Concerning this Issue " leslie took a Picture of it when this was Occurring because leslie KNOWS for a ABSOLUTE Fact that GangStalking Organized Stalking are Directly connected to Human Trafficking Rings,  
 Now why is this being stated,  
 The System/ and Corporation's that are perpetrating these Criminal Expedition's, Covertly manage them from behind the scence's using their Employment descriptions and the Influences and connection's to them including the Community Programs that are attached to them Like Neighbor Hood Watch Groups, Home Owners Association's Church's Charities, self Help Groups Homeless Shelters and MUCH MORE being influenced thru the way these Criminal's operate " to get a whiff of this Review these two Video's-here are their Titles You Tube them, and how Slander and Fake Bogus Criminal Investigation Files are created concerning a Target and used within the Tow Video's here to solicit persons in the Commiunity to harrass a Target and even participate in Staged events toward a Target, including one's that produce Tickets and or Arrests of Targets,  
 Now Leslie was using the Law Library on Front street San Diego To Upload evedence videos and Prediction Video's while doin legal Research she never ever bothered a Soul in any way in that library or outside of the Library.  
 In April 2016 they stated that they changed their Policies due to Costs of operating the Library which in turn gave them the Normal Appearing reason to be Hyper Viligant to ActiMy PHYSICALLY Monitor Persons Computer activity and Go after them if they were engaging in Computer Activity outside of these new Policy parameters, they went after leslie IMMEDIATLEY once she entered the Library  
 " and Will ABSOLUTELY lie about it and Call her crazy concerning it, Now the Goal behind this is Multifold  
 They knew what leslie had been doin EVERYTIME she went their Because they were ACTIVLEY Participating in the GangStalking of her, and Cybersurveillance is a Method of these Crimes Google and You Tub e it, so they did this in refreernce to goinb after her as soon as she came in in April 2016 in order to let her KNow and even act like they were warning her that if she does anything that is outside of these new Policy parameters she will be Banned and they absolutely let her know she was being Physically monitored this was done for the Sake of the Video Cameras on their Wall, so they could say we warned her we offered her a Pamlet explaining the rules and she still engaged in You Tube Video UpLoading so they could Justify banning her-  
 The Goal was to Pshycologically and Phsycially take away this Computer Resourse thru normal appearing avenues/excuses,  
 These are the schemes of GangStalking UNDERSTAND they are.  
 Now UCSD Banned leslie thru a Letter NEVER EXPLAINING WHY within it.  
 THE Goals are to take away what leslie is /was using to not only expose them and the Evidence's attached to their physical Property's but to make sure that once the Criminal Motivations Escalate their attempts to acheive them, they didnt DONT want leslie to be able to expose who's participating in it whier its occurring at and how,  
 ISOLATION,  
 Leslie Predicted in Email Files Blogs Tweets and Videos UCSD and the Law Library whould do WHAT THEY Did before they did it and Ralphs at LaJolla Village Sq

in LaJolla and the San Diego Library's will follow suit, they'll just use different avenues Even Go in as Far as staging physical events whether Leslie's there or not and creating Security Guard reports Police Reports and then acting that it's in their Best Interest to Not allow persons to use their Computer Wi Fi and or Electrical Outlets anymore because of these recorded even Repeated events,

I want you to Understand Leslie has experienced this Crime EVERYDAY EVERYDAY everywhere she has went in 4 States Openly since 2002 apartments and Camping areas as well- and since 6/9/09 the Day she discovered the Name of the Crime that was/is happening to her she has Done YEARS of Massive exhaustive research online concerning who Hosts them Participates in them and who Protects them and How they operate and what types of Criminal Motivations this crime is Engaged in, so what's stated above comes from experience and ABSOLUTE Exhaustive In-depth research, they're going to start banning her from Ralphs and SD Public Libraries they're going to target her computer and her Phone Her Money Her Identification cards her Camping areas and her Social security and freedom within this Year 365 day effective April 2016 , this Blog you are reading shows Leslie on National Radio shows and a Huge amount of Indisputable Massive evidence, ALWAYS remember this ALWAYS

Leslie is Not Violent, she is Not Mentally ill in any way She is Not and never will be or never has been suicidal, she doesn't do Drugs at all Period and she doesn't drink she doesn't steal, and remember this always they created the Homelessness of Leslie in order to Monopolize on it to exploit it to exploit her, and the Police The Courts the Prosecutors and Public Defenders are ABSOLUTELY connected to this IN EVERY WAY which this Blog exposes, see they know this crime is Protected by the System That is perpetrating it so they know when they incrementally implement these schemes that brings about the Exposure ISOLATION they know it will be combined with going after Leslie in Between and after the Exposure Isolation- before Leslie can get any UNCORRUPTED Legal Assistance and make no mistake about it they are syndicated members to their crime within the San Diego Bar Association and in Private practices Judges are also connected to these Crime syndicates
